Montrose, Colorado

8:00 am to 5:00 pm
Delta-Montrose Electric Association
11925 6300 Road

February 12, 2004
Westminster, Colorado

8:00 am to 5:00 pm
Tri-State Generation and Transmission
Headquarters
1100 West 116th Avenue

Planning new facilities?

Discover how you can use LEED to get better buildings!

Full day workshops for state and local government officials involved in design and decision-making for new facilities

Find out more about LEED:

- Learn about the many benefits of designing energy-efficient, high performance buildings, and hear about LEED projects in Colorado: schools, offices and more!
- Get an in-depth look at the LEED scorecard and how to use it.
- Learn how to apply the LEED system to design buildings with energy efficiency, wise water use, low toxicity materials, construction waste recycling and more.
- Receive a LEED version 2.1 Study Guide and other helpful resources.
- Take the first step toward becoming a LEED Accredited Professional.

Presenters: Greg Franta, FAIA and Lauren Yarmuth are LEED Accredited Professionals with ENSAR Group of Boulder, Colorado. Both instructors have extensive experience creating high performance, environmentally sound buildings and applying the LEED rating system.

Register today! Registration forms are available at www.colorado.gov/rebuildco. Admission is \$45 for one day. (Intended audience is state and local government staff; others may register for the waiting list.) Questions? Contact Jana Simpson, 303-442-2206.

Promoting sponsors: Department of Personnel & Administration's State Buildings & Real Estate Programs, Colorado Association of School District Energy Managers (CASDEM), Council of Educational Facility Planners International (CEFPI), US Green Building Council Colorado Chapter, Western Area Power Administration

What is LEED?

The Leadership in Energy and Environmental Design (LEED) Green Building Rating System™ was developed by the US Green Building Council as a voluntary standard for developing high-performance, sustainable buildings. Learn more at www.usgbc.org/leed.
